DELAYS-OPORTUNITY

Further issues identified with limestone blockwork / kerbing interface as limestone wall depth and finished level trip hazard protection is not compatible with block height nominated in documentation.

Survey collected for potentially problematic proposed new foreshore/museum intersection and Forrest street to advise if additional adjustments required.

Lateral relocations pipes hit multiple times during NBN pit installation due to relocation within NBN alignment. Multitude of rework identified.

Vacuum truck used for lightpoles in locations indicating possible service interfaces.

Chambers monument lightpole impacted by relocated services.

Lightpole adjoining southern wombat interfacing with relocated electrical needed to be relocated closer to road. Lightpole inside garden bed relocated outside garden bed at client direction.

Changes occurred after light poles were vacuum excavated.

Final Level of Northern Lots Determined

Issues around Traffic Control have been identified

HSEQ MESSAGES

TCD - Monthly Safety Focus: Prestart Checks

TCD - Daily Safety Focus: Hydration

Hazards Reported: Nil

Incident Free Days: 2

Other Notes: NA
